

**IEEE Control System Society
Technical Committee on Control Education**

Call for Papers

**Invited Sessions on Control Education:
American Control Conference
Conference on Decision and Control**

The IEEE Control Systems Society Technical Committee on Education (TCE) will begin sponsoring invited sessions on education at the Conference on Decision and Control and at the American Control Conference. Individuals are welcome to organize complete sessions and then seek TCE sponsorship or to submit individual papers directly to the committee and we will organize the sessions. Topics may include (but are not limited to) new approaches to material presentation or coverage, innovative laboratory experiences, remote or virtual labs, technological advances in teaching controls material.

- For those interested in organizing a session for the 2014 ACC and seeking the sponsorship of the TCE, please contact the Committee Deputy Chair by August 1, 2013. Include the theme of the session, a description of the topics, and suggested contributors.
- For those interested in submitting individual papers to a session organized by the TCE at the 2014 ACC, please submit a full length paper by September 1, 2013 to the Deputy Chair in Charge of Invited Sessions. All email submissions should be in pdf format with the subject line “2014 ACC Invited Session”

Papers must conform to the submission policy, detailed on the conference web page, requiring in particular that all manuscripts be written in English, be in 2-column format, and meet strict page limits. <http://a2c2.org/conferences/acc2014/>
