

# Math, Science and Technology in Control Engineering Education

2006 American Control Conference

## Evening Round Table Panel Session on Control Education

6:00-8:00 pm, Thursday, June 15, 2006

Grand Ballroom Salon D, Minneapolis Hilton Hotel

Organizer and Chair: Bozenna Pasik-Duncan, Control Education Committees (CSS, AACC, IFAC)

The session will address important education issues of balancing math, science and technology in engineering education.

The session has been organized as a part of the ongoing national and international dialogue after some "alarming reports" have been issued. The panelists will try to respond the question, **"What scientists and educators should do about cultivating student interest in math, science and engineering, in particular control engineering?"**.

This is a follow-up to the session organized at CDC/ECC'05 in Seville, Spain.

Panelist include:

John Baillieul

William Levine
